

## 2001 honda odyssey canister system with no power

After looking at all the issues above I found that odyclub member "Sinbad" posted this amazing link to a service bulletin about the power doors for 1999-2001 models. WOW this is a great link and really breaks down the power doors and how they are supposed to work. Also in this link is how to properly reset the doors.

Hi, Ive never used this forum however I am in dire need of help... I purchased a 2001 Accord, 4 cylinder, standard, about a week ago. The car has been great and I have had no problems with it until now. Ive been driving it for while with low gas, Today I went and filled it up with 40\$ Regular. Recently I filled it once with 15\$ regular.

I did my father's 08 ody that had no steering pump recall campaign and he had a low speed loss of power steering assist. His PS pump sounded like it was starved for fluid (faint whine) and after replacing the reservoir with a newer higher flow one (revised part from Honda) and a flush with 4 bottles of PS fluid all seems good now.

4. I transferred the bracket from my old canister to the new canister since the 2016 bracket was a little different shape and missing one of the holes for the plastic shield to attach. 5. Connect new canister and bracket to underside of van with 3 10mm bolts 6. Re-connect the 2 electrical connectors and 4 hoses/tubes 7.
