Hello, I have a 2015 Dodge Charger SE. apparently had an electric power steering system and I just got a message on the dash that says it needs servicing. The car is driving just fine. No issues with turning or any of that. I have noticed a sound my car makes when I cut it on or after the engine is off and it settles..lags a little.

How to Add Power Steering Fluid to a 2012 Dodge Charger RT 5.7L V8 RT 5.7L V8. Our research indicates that your vehicle has an electric power steering system ("EPS" or "EPAS"). These systems use an electric motor instead of a hydraulic system and therefore do not have any power steering fluid to leak. Electric power steering typically require ...

If your Dodge Charger's steering wheel is hard to turn, it's almost always going to be caused by an issue with the power steering system. But there can be other causes as well. Your car's power steering system is responsible for taking energy from the engine, converting it to hydraulic pressure, and using that pressure
