What is a portable solar generator?

Portable solar generators are a great way to take advantage of solar power when you're camping, tailgating, or just out enjoying the outdoors. In this article, we'll introduce you to the best portable solar generators on the market and help you choose the one that's ri... .

What are the best portable solar power stations for campers?

The BEAUDENS Portable Solar Power Station is a must-have for campers. This power station really is portable! It measures a mere 17.2 x 15 x 8cm, and it weighs a meagre 2.2kgs. Whether you're camping, spending a day at the beach or even hiking, this little generator can be brought along with you - offering reliable power in any emergency.

How do solar generators work?

Solar generators work in a similar way to standard gas generators, but they use energy from the sun as opposed to fuel. Using a solar panel, solar generators take in power from the sun, then store the power in their integrated batteries. The power is converted to usable AC power, allowing you to charge your devices.

Do solar generators come with a wall plug?

Most solar generators also come with a standard 110V AC wall plug, as well as the standard car cigarette lighter. Before purchasing, you'll need to check your solar generator is suitable for the devices you are looking to power. While solar generators are recharged by the sun, most can also be charged using an AC wall outlet and a carport.

Do solar generators need a portable design?

If you're taking your solar generator on the go, a portable design is essential. Solar generators are often taken to remote locations, so a compact and lightweight design will add to the convenience. Many come with a foldable handle for easier transportation.

How do I choose a solar generator?

Most come with a variety of USB ports for charging smaller devices such as smartphones, laptops and speakers. Most solar generators also come with a standard 110V AC wall plug, as well as the standard car cigarette lighter. Before purchasing, you'll need to check your solar generator is suitable for the devices you are looking to power.
