

# Aims power system controller

What kind of batteries does aims power sell?

NEW! Lithium Battery 12V 104Ah LiFePO4 with Wake Up, BT Monitoring & Heater AIMS Power sells signature DC to AC power inverters, solar panels, deep-cycle batteries, solar charge controllers and more. Custom solar kits and US based tech support.

Are aims charge controllers UL certified?

Many AIMS charge controllers are covered by warranties and are ETL certified to UL standards. Choose among PWM, or pulse width modulation, controllers, often used for float charging. We also have introduced our MPPT solar charge controller, or maximum power point tracking controller.

Does aims Power™ use tracking?

Maximum power point tracking is used. It is strongly recommended to insure the shipment. AIMS Power™ is not liable for products that are lost or damaged in-transit. The RMA authorization email will indicate what, if any, other product contents need to be sent in with the returned product. For any other questions please contact

How do I get a return merchandise from aims Power™?

Warranty period TO RETURN MERCHANDISE: It is our goal at AIMS Power™ to provide a comprehensive and hassle-free return and exchange process. As such, please review the below process before initiating warranty claim. Contact AIMS Power™ via phone or email to submit your warranty return request and obtain a Return Merchandise Authorization.

Which PWM controller is best for a small project?

Smaller controllers like our 10-amp PWM models are ideal for small, do-it yourself projects. They are easy to set up and have PV inputs, battery outputs and load control output ports and work with 12V or 24V battery systems.

The AIMS Power 100 amp charge controller uses advanced digital control technology, includes a LCD display and fully automatic operation. The controller uses MPPT technology and provides three charging stages and improves battery storage and charging efficiency. This charge controller can also be connected in parallel for multiple units if needed.

Aims Power SCC40AMPPT 40 Amp MPPT Solar Charge Controller, 12, 24, 36 and 48 Volt Solar Systems; 4 Stage Charging; Battery Type Selector; Stackable; Over Temp Protection Visit the AIMS Power Store 4.2 out of 5 stars 93 ratings

This solar battery charge controller by AIMS Power features a smart tracking algorithm using MPPT charging technology and has less power loss performing at 97.5-99% efficiency, maximizing energy harvest. The tracking algorithm is automatic and varies with weather conditions. This charge controller also has

The AIMS 30 amp solar charge controller is ideal for smaller solar arrays and DIY projects. This charge controller is capable of handling 400 watts worth of solar panels for a 12V battery bank and 800 watts at 24V dc. The Charge Controller comes with a digital display with selectable Amperage or Voltage monitoring.

Whether you are using solar power for a cabin that's off the grid, as a backup system for your home or business to provide electricity when city power goes out or for pumps or other remote uses, AIMS Power offers a selection of solar racks, ground and pole mounts, combiner boxes and connectors to help you get the most out of your solar array.

The AIMS MPPT charge controller uses an efficient algorithm to fully adjust with weather conditions to ensure that maximum power is harvested from the solar panel array throughout the day at 97.5-99% efficiency.

This solar battery charge controller by AIMS Power features a smart tracking algorithm using MPPT charging technology & has less power loss performing at 97.5-99% efficiency, maximizing energy harvest. ... 36 & 48V solar systems with Multistage charging technology & adjusts according to battery type. The aims charge controller includes LED ...

We sell our signature DC to AC inverters, solar panels, deep-cycle batteries, solar charge controllers and more

# Aims power system controller

to some of the most innovative companies and organizations across the US and worldwide. What's more, we strive to provide the best quality products and unbeatable customer service and tech support to match.

to these systems, the 2 auxiliary relays can be programmed by constants setting. The functions and programming of the relays help to control the dump loads. Multiple AIMS MPPT+ with cables (up to 16 units) can be connected in larger power systems. The ...
