

# American owned solar companies

Who makes American solar panels?

Get quotes from the top American solar panel installers using the form below. If you are looking for U.S.-made solar equipment, the largest American solar panel manufacturers include Silfab Solar, Mission Solar and First Solar. Additionally, Tesla Energy, Canadian Solar and Qcells produce some solar panels in the U.S.

Are solar panels made in America?

Additionally, Tesla Energy, Canadian Solar and Qcells produce some solar panels in the U.S. Although solar panels manufactured in the U.S. are not necessarily higher quality than panels made elsewhere, investing in American-made solar panels supports domestic solar research and helps create jobs.

Should you invest in American-made solar panels?

American-made solar panels tend to cost more than panels manufactured overseas in countries like China and Korea. However, investing in U.S. solar panels can help support the domestic economy and advance solar research and development. Ultimately, a solar panel manufacturer's country of origin may or may not be a deciding factor for you.

What are the biggest solar panel manufacturers?

Some of the biggest U.S.-based solar panel manufacturers include: 1. Auxin Solar Founded in 2008 and headquartered in California, Auxin Solar is the nation's longest-running Community Solar Value Project (CSVP).

Why should you choose a solar panel that is made in America?

Choosing a solar panel that is made in the United States supports both American manufacturing and American jobs. Because these panels are designed and tested in the U.S., the specifications provided are true to the environment that you will use them in most of the time.

Are American-made solar panels any good?

It's worth pointing out that none of the American-made solar panels have cracked the very top tier of our performance rankings (those honors belong to Moxon, REC, and Panasonic, each of which builds their panels in other countries). But U.S.-made panels such as Qcells and Canadian Solar, are ranked close behind.
