

# Anker solix c1000 ups mode

How much power does the Anker Solix C1000 have?

The Anker Solix C1000 is a midsize power station with big power potential. The 1056Wh LFP battery can kick out up to 1800W of power and surge up to 2400W to run many of your typical electrical devices using standard outlets, USB-A, USB-C, or a 12V car socket. Even better is you can recharge this C1000 from 0-100% in under an hour.

What is Anker solid C1000?

Give yourself some extra room thanks to the flat design of Anker SOLIX C1000. You can set your devices or batteries on top, just like a desk. Bring home convenience to camping with Anker SOLIX C1000 (1056Wh, 2400W). Power 99% of appliances with this portable power station.

How do I recharge my Anker Solix C1000?

In the box, Anker provides three cables for recharging the Solix C1000 -- one for plugging into an AC wall outlet, one for using your vehicle's 12V car socket, and one with two XT60 plugs to connect two solar panels to your power station. Besides the cables and some documentation, the only thing you'll get in the box is the Solix C1000 itself.

Is Anker solid C1000 a good power station?

Anker SOLIX C1000 outpaces other power stations. Industrial-grade components, advanced circuitry, and superior cooling give it a 5★ longer lifespan. Go on your adventure. Anker SOLIX C1000 can handle it. It's protected against bumps, drops, UV light, and fire. Your car's packed, ready to power the party.

How do I connect my Anker c1000/c1000x portable power station?

I'm not sure if I understand the question. If the battery does not deplete, then whatever outlets are on/off stay on/off. When the power resumes, then the AC outlets bypass the battery while it charges. This is what Anker calls "UPS mode" (having the AC outlets bypass the battery when the battery is plugged into AC power).

Anker SOLIX F3800 UPS Output Limit: US: 1440W JP: 1200W EU/UK/AU: 2990W Uninterruptible Power Supply (UPS) To use the UPS feature, connect your power station to a wall outlet with the AC charging cable, then press the AC outlet button and connect your devices via the UPS AC output ports.
