APC UPS Battery Backup and Surge Protector, 600VA Backup Battery Power Supply, BE600M1 Back-UPS with USB Charger Port . This APC battery backup power supply offers guaranteed power and surge protection for wireless networks, computers, and other electronics in your home or business. Backup battery power supply is designed for use during ...

When power is interrupted, or fluctuates outside safe levels, a UPS will instantly provide clean battery backup power and surge protection for plugged-in, sensitive equipment. APC, a flagship brand of Schneider Electric, offers UPS options for Computers & Peripherals, Networks & Servers, as well as Data Centers & Facilities.

Don't daisy chain surge protectors with other surge protectors, power strips, or UPSs for more outlets. You run the risk of overloading your home's electrical circuits, igniting an electrical fire, or voiding the surge protector's warranty. Surge protectors gradually wear out over time and won't always indicate when a replacement is needed.

If you want both maximum electrical protection and a means of keeping your PC constantly powered, you can combine both a surge protector and a UPS. Most UPS devices include a basic surge breaker and ground, and you can plug non-critical devices like speakers, phone chargers, or lamps into a cheap surge protector on the second wall outlet.
