

Apart from utilizing the lithium metal foils to enhance its own lithium-sulfur and lithium metal batteries, Li-S Energy is also providing the foils to academic institutions, commercial ...

This partnership is set to invest up to EUR4.1 billion (approximately USD\$4.3 billion) in a large-scale EV battery plant located in Zaragoza, Spain. The facility aims to manufacture ...

A transformative research partnership led by Swansea University in the UK, in collaboration with tertiary institutions in Kenya and Nigeria, has secured major UK government funding to fast ...

Key players like Liebherr, Sennebogen, and Terex Fuchs are investing heavily in research and development to enhance the performance, safety, and reliability of electric drive material ...

Berkeley Lab AMCR researchers have developed a machine learning framework that dramatically accelerates battery lifespan predictions--using far fewer experiments--by combining expert ...

The electric vehicle (EV) battery market is experiencing rapid growth driven by increasing demand for EVs, stringent emission regulations, and government incentives. One of the most ...

Spain's Battery Energy Management System market is evolving rapidly, fueled by digital adoption, public sector modernization, and increased investment in R& D. Key sectors such as tourism ...

RECOMMENDED ARTICLES In the past decade, traditional leaders like Toyota, Panasonic, and Samsung have been investing heavily in solid-state battery research and development.

Here, we explain how the new Spanish legal framework, Real Decreto-Ley 7/2025, paves the way to accelerate battery energy storage system (BESS) projects by reducing bureaucracy, risks, ...

The Australia-US Researcher Exchange Network aims to strengthen Australia-US research ties, build Australian research capacity in battery technology, and ultimately contribute to the development of a robust ...
