How much will Solex energy invest in solar energy by 2030?

India-based Solex Energy plans to invest INR 8,000 crore (\$954.5 million) by 2030 to achieve 5 GW of solar PV cell manufacturing capacity and 15 GW of module capacity. From pv magazine India

What is Solex energy doing in India?

She has been associated with pv magazine since 2018, covering latest trends and updates from the Indian solar and energy storage market. India-based Solex Energy plans to invest INR 8,000 crore (\$954.5 million) by 2030 to achieve 5 GW of solar PV cell manufacturing capacity and 15 GW of module capacity.

What's new at Solex energy?

Solex Energy Ltd is expanding its solar module capacity to 1.5 GW by September this year with the addition of an 800 MW line. The new line will comprise new-generation stringers from Wuxi and automation from GMEE Solar.

Where is Solex energy based?

Based in Surat, Solex Energy is in the process of expanding its solar module manufacturing capacity to 1.5 gigawatts (GW) from 700 megawatts (MW), at present, in Tadkeshwar, Gujarat. (You can now subscribe to our) (Catch all the Business News, Breaking News, Budget 2024 Events and Latest News Updates on The Economic Times.)

How many solar modules does Solex have?

Currently, it has a 700 MW module production capacity with an additional 800 MW to start production by December this year. Solex aims to expand its workforce to over 25,000 to support this growth in solar manufacturing. Solex recently launched its Tapi-R series PV modules based on n-type TOPCon cells in a rectangular design.

How will Solex grow its manufacturing capacity in 2024?

The company also intends to increase module manufacturing capacity from 1.5 GW at the end of December 2024 to 15 GW. Currently, it has a 700 MW module production capacity with an additional 800 MW to start production by December this year. Solex aims to expand its workforce to over 25,000 to support this growth in solar manufacturing.

Indian solar module manufacturer Solex Energy Limited today unveiled India's first rectangular solar cell-based modules in TOPCon technology. The company has named this new brand as "Tapi-R series". The launch happened in New Delhi today. The name Tapi-R comes from the firm's location in Surat, itself on the banks of the Tapi river in ...
