

## Best electric cars 2022 2023

Electric cars and hybrids are common on our roads. However, last year EV sales hit the skids. In 2022, EV and hybrid cars accounted for a third of all new car registrations. And in 2023 that percentage increased to 41%. ...

Norway is going (almost) fully electric in 2025 Last year, nearly nine out of ten new cars sold in Norway ran solely on batteries, according to registration data from the Norwegian Road ...
