Where are solar installation companies located?

Many solar installation companies are located in larger metropolises. Still, with the growing popularity of this energy-saving product, more and more companies are setting up shop in rural areas. The service area of companies will vary, but many will consider anywhere within a 30-minute commute from its home office to be in its area.

How do I choose a solar installation company?

Solar installation requires a company's employees to work inside and on top of your home, so it's important to ensure you hire a company you can trust. Customer ratings and reviews can provide an abundance of insight into how a company and its employees operate, so be sure to seek out highly rated companies.
