How do I choose a solar installation company in Tucson?

With 1,520 solar companies in the area and the median Tucson household size as 1,924 square feet, you should get a basic idea of how many options are at your disposal and what size solar system you'll need for your home. Below are a handful of other important aspects of choosing a solar installation company in the Tucson metro area.

How much does solar cost in Tucson AZ?

The average price per watt of solar power in Tucson, AZ is \$2.07/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$17,565 for a 12.12 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Is solar energy a good idea in Tucson?

Solar energy offers a renewable, eco-friendly and cost-effective way to power your property. If you're from the Tucson, Arizona, metro area and are considering going solar, it's important to do your research beforehand and understand basic costs for solar in your area.

Is Sunrun a good solar company?

Sunrun is another big name you'll likely come across when researching solar leases in Tucson. Sunrun doesn't have a great reputation among customers or solar industry pros, so we don't recommend doing business with this company. What are the best solar companies for zero-down solar loans in Tucson?
