Is Ohio a good place to install solar?

Ohio is ranked 7th in the country for its growth projection by the Solar Energy Industries Association (SEIA), with an ambitious goal of installing 7,485 MW of solar in the next five years. With these promising trends in mind, it's no wonder homeowners are joining the solar community by making smart choices with their energy habits.

Does Columbus pay more for solar?

Columbus's population is more than 907,310, but the city maintains a cost of living that's lower than the national average. Accordingly, Columbus residents typically pay more for local services. When it comes to solar installations, though, this may not be the case. Places with more sun tend to have a broader range of price options.
