Does Jackery sell explorer solar panels?

Jackery sells its own SolarSaga 80 (click to view on Amazon) and SolarSaga 100 (click to view on Amazon) that come with 8mm connectors, directly compatible with every Explorer model. Let's start by listing my solar panel recommendations and the limits of the Explorer power stations.

What is the best solar panel for explorer 500?

The Jackery SolarSaga 100W is the best solar panel for Explorer 500. Jackery claims this solar panel can take the Explorer 500 from zero to a hundred percent within 9.5 hours. Having been able to test this solar panel a few times, I can tell you that Jackery is right on that count.

Are Jackery solar panels eco-friendly?

Designed with industry-standard solar connector, Jackery solar panels are compatible with third-party power stations too. Capture more energy by teaming it up with the Jackery Explorer power stations. Unlike traditional generators, solar power panels do not emit harmful gases or fumes, making them eco-friendly.

How to charge Jackery explorer portable power stations with solar panels?

Extension cables are a great way to charge Jackery Explorer portable power stations with solar panels that are far away. You can use either MC4 extension cables or an 8mm.

Can a Jackery Explorer use a 40V solar panel?

Every Explorer has a 30V input max. You can connect a 100W solar panel to a Jackery Explorer with a 42W max solar input, but you shouldn't connect a 40V panel to a power station with a 30V maximum input voltage. The panels I recommend above are all within safe voltages, and won't hurt the charge controller in the Explorers.
