

Bigbattery inc

Why is bigbattery so expensive?

BigBattery was created to provide affordable, attainable, and sustainable energy solutions worldwide. Through modern technology, energy creation has become extremely affordable, yet energy storage remains very expensive. The high cost of batteries is currently prohibiting mass adoption of clean and reliable energy solutions.

What is bigbattery?

BigBattery is your one-stop shop for a wide assortment of high-capacity LiFePO4 battery solutions. Our batteries power everything, including homes, RVs, campers, golf carts, forklifts, and other equipment. Our core purpose here at BigBattery is to promote the mass adoption of renewable energy solutions.

Where do bigbattery batteries come from?

Most of BigBattery's supply comes from manufacturers' overstock, but they also take in secondhand car, e-bike, and scooter batteries. Then BigBattery's 130 employees break them down and recombine them. The full assembly process for one of BigBattery's larger battery packs.

What's new at bigbattery?

Senior Director of Business Development at BigBattery.com. Advanced Lithium-ion Battery Solutions for Res/Com Utility Grid Back-Up, Golf Cart/LSV... BigBattery got a big upgrade! We recently moved our HQ so we can keep growing and continue bringing cutting-edge lithium solutions to the masses.

Does bigbattery take unused batteries?

BigBattery pays, rather than charges, companies to take away their unused or returned batteries--the only way to ensure sustainable reuse and recycling. Most of BigBattery's supply comes from manufacturers' overstock, but they also take in secondhand car, e-bike, and scooter batteries.

What is a bigbattery battery pack?

BigBattery industrial lithium battery packs were designed as a plug-and-play option for electric commercial and industrial vehicles currently using lead-acid batteries. By switching to BigBattery lithium, your vehicle will gain more power and have less weight with increased operational hours.
