

Brightbox energy storage

Why should you choose BrightBox solar battery storage service?

Performance- Brightbox is here for you when you need it most. Rain or shine, energy storage means no more being left in the dark. Brightbox protects your home from power outages and keeps your lights on, your refrigerator running, and your devices charged. How Can Sunrun's Brightbox Solar Battery Storage Service Help You?

What is a BrightBox Solar System?

Brightbox is a holistic solar battery storage system that offers you clean, safe, reliable backup power to have better control over your home energy use and cost. What happens at a solar installation?

Does BrightBox use solar power?

Savings - Solar power is yours for the saving. Whether it's keeping you from spending too much on a dirty generator, or the battery kicks in when your electricity peaks during Time of Use (TOU) rates, Brightbox will use your stored solar energy to help ensure the lowest utility bill payment possible.

Where can I buy a BrightBox?

The Brightbox is only available to customers in the states mentioned above (Arizona, California, Hawaii, Massachusetts, and New York) looking to install a new solar panel system and would like to add storage. The Tesla Powerwall and Sunrun's Brightbox offerings are similar in multiple ways.

Why should you choose BrightBox?

And, since we tailor all of our solar plans to help meet the needs of your home and lifestyle; you can count on Brightbox to be ready when you need it most. Save your solar power with battery storage for when you need it most.

What is a BrightBox battery?

The Brightbox package is Sunrun's company-branded battery option, launched in partnership with LG. LG Chem's batteries are not an exclusive offering of SunRun; they are also available from other U.S. solar installation companies. The LG Chem batteries are lithium-ion and come in a variety of sizes.
