

# Brother solar energy

Who is solarbrothers?

Founded by two brothers who have always been drawn to the power of the sun, SolarBrothers was created with the goal of making solar energy accessible and affordable for everyone. We are committed to providing high-quality, reliable solar solutions that are tailored to the unique needs of each of our clients.

Who is solar brother?

Specializing in the design of ecological solar solutions (ovens, barbecues, vegetable dryers, etc.), the French startup Solar Brother announces the launch of SunA&#233;ro: solar heating which allows you to heat and renew the air in rooms from 20 to 60m<sup>2</sup>.

What is solar brother's 'suna&#233;ro' heating system?

Solar Brother has announced the launch of SunA&#233;ro, a solar heating system that heats and renews the air in rooms measuring 20 m<sup>2</sup>; to 60 m<sup>2</sup>;. The system combines PV and thermal energy to heat, renew or dehumidify the air in the rooms of a home. It reportedly allows homeowners to lower their traditional heating thermostat by 3 C to 5 C.

Why should you choose solarbrothers?

At SolarBrothers, we are passionate about making the world a better place through the use of renewable energy. As a solar company, we believe that harnessing the power of the sun is not only good for the environment, but it also makes economic sense for homeowners and businesses alike.

Using the SUNGOOD&#174; solar cooker Principle. SUNGOOD&#174; is a panel solar cooker. The SUNGOOD&#174; uses the principle of concentrated solar energy: the sun's rays are reflected by the SUNGOOD&#174; mirrors and concentrated on your container, where the heat gradually rises and heats your preparation.
