

The battery industry moves at a fast pace: The articles Battery Technology publishes represent only a fraction of what's happening in this quickly evolving industry. That's the idea behind this curated and regularly updated ...

As part of Egypt's strategy to localize industry and increase the share of local components in national projects -- particularly in renewable energy and battery storage technologies -- ...

China's EV & Battery Reach Expands Globally: Europe Embraces Chinese Innovation Chinese EV makers are rapidly expanding into Europe, offering competitive prices and advanced technology. European automakers are ...

These five battery technologies could be poised to challenge lithium-ion in EVs. Let's touch upon their workings, advantages, and drawbacks to see if they could shape a sustainable future for ...

Apart from proposing to tighten export restrictions on battery cathode material preparative technology, China plans to enhance export curbs on specific technologies and processes used for extracting metallic gallium and lithium, ...

Cairo, Egypt - In a historic move for North Africa's energy sector, AMEA Power has successfully commissioned Egypt's first-ever utility-scale Battery Energy Storage System (BESS)--a 300 ...

Chinese battery manufacturer Kage opens its European headquarters in Barcelona Business Investments Kage opens European HQ in Barcelona to boost logistics, tech development, and global growth in batteries ...

The International Finance Corporation (IFC) announced on Sunday a landmark investment to support the development of Egypt's first utility-scale battery energy storage system (BESS), in ...

Cairo, Egypt - In a historic move for North Africa's energy sector, AMEA Power has successfully commissioned Egypt's first-ever utility-scale Battery Energy Storage System (BESS) --a 300 ...

To achieve better and longer lasting batteries for electric vehicles, EU-funded researchers are developing technology that enables batteries to quickly detect damage and repair themselves. ...

Solid state batteries (SSBs) have long been anticipated as a significant breakthrough in battery technology. Recent advancements from companies like QuantumScape and Solid Power indicate that ...

Egypt's first large-scale hybrid solar and battery plant has begun construction as the country looks to its
