

Canadian solar panels

Is Canadian Solar a good company?

Canadian Solar is a top company in terms of power output and efficiency. Its residential solar panels can produce 450 watts, which ranks it among the top solar panel providers. The company's solar panels have efficiency ratings that reach as high as 23%, the highest efficiency rating of any residential solar panel.

How efficient are Canadian solar panels?

Canadian Solar panels have an efficiency rating of 15.88% to 20.60%. We use the temperature coefficient to evaluate solar panel performance. The temperature coefficient indicates how well your solar panel can handle less-than-ideal conditions. Solar panels, like other electronic equipment, perform better when kept cool (ideally around 25°C; 77°F).

Where are Canadian solar modules made?

That said, the vast majority of Canadian's module manufacturing is done in China. In addition to the Chinese and Canadian facilities, Canadian Solar also manufactures various solar materials in Indonesia, Vietnam, and Brazil. Canadian Solar was founded in 2001 by Dr. Shawn Qu, making it a relatively old solar manufacturer.

Who is Canadian Solar?

Dr. Shawn Qu, Chairman, President and Chief Executive Officer founded Canadian Solar (NASDAQ: CSIQ) in 2001 in Canada, with a bold mission: to foster sustainable development and to create a better and cleaner earth for future generations by bringing electricity powered by the sun to millions of people worldwide.

Where can I buy Canadian solar panels?

Canadian Solar's world class team of professionals work closely with our customers to provide them with solutions for all of their solar needs. Solar Electric Supply only carries genuine Canadian Solar modules intended for distribution in the USA. Low wholesale pricing for the latest Canadian Solar solar panels.

Does Canadian Solar make solar panels?

Beyond manufacturing quality panels, Canadian Solar also manufactures and sells solar parks around the world. In fact, they recently sold three solar farms in Japan totaling 30.4 MW at peak performance. While the company might have global name recognition, do they make the right solar panel for your home?
