

# Clean current power systems stock symbol

Summary. Ballard Power Systems is a notable player in the proton exchange membrane fuel cell technology sector, positioning it well in the growing market for green energy and sustainability.

It has developed a hydrogen and oxygen production system as a clean alternative to complement battery-power for electric vehicles, off-grid, and grid-based electricity storage. It serves various markets, including power, industry and manufacturing, transport and machinery, commercial and retail, and hydroculture markets.

After failing to break triple top resistance around \$27.50, shares of Bloom Energy caught double bottom support around \$20.60. From here, I'd like to see the stock retest a prior high of about \$45.
