

Conergy solar panels

Who makes Conergy solar panels?

From their founding, Conergy has been a major manufacturer and leader in the world of photovoltaic modules. The company produced some of the most reliable and value based Germanmade solar panels in the world. Conergy has now turned their focus to combine innovative technology, industry-leading engineering with access to capital.

Who is Conergy solar?

Conergy is one of the world's largest downstream solar companies, specializing in the design, finance, build and operation of high performance solar systems for businesses and utility-scale power. They have been a global leader in providing clean, renewable solar energy to North America and worldwide.

Are Conergy solar panels a good brand?

Conergy sub-contract installation in Aus and unfortunately the quality of the sub-contractors in terms of installation scheduling and professionalism really has let the brand down. Perhaps this is not isolated to the solar panel business but more generally. Overall Conergy products are very good.

Where are Conergy power plus solar panels made?

The Conergy Power Plus solar panel designed and made in Germany is tested in both laboratory and environmentally to ensure these panels meet the harsh conditions of Australia, not just sterile laboratory tests.

What makes Conergy power plus different from other solar panels?

Additionally, the Conergy Power Plus frame is designed for the allowance of metal expansion/detraction compared to some solar panels that are welded at the corners which create stress on the corners.

What products does Conergy offer?

So, no matter what your needs are, Conergy can offer you and your business an extensive lineup of products, from solar panels to solar storage solutions, from inverters to a wide array of mounting systems.
