Eaton leads the industry in the application of single-phase voltage regulators into substations regulating loads up to 60 MVA. With features such as fan cooling and insulating fluid filtration, substation voltage regulators provide a viable option superior to the use of On-Load Tap-Changers (OLTC) with the added flexibility of regulation separate from the power transformer.

Power Fx binds objects together with declarative spreadsheet-like formulas. For example, think of the Visible property of a UI control as a cell in an Excel worksheet, with an associated formula that calculates its value based on the properties of other controls. The formula logic recalculates the value automatically, similar to how a spreadsheet does, which affects the ...

Power Apps and Dataverse low-code plugins use this model. Finally, we believe that Power Fx is an excellent target for generative AI code generation, allowing humans to validate and maintain the result in a concise Power Fx form. Power Apps has already taken some steps in this area, but there is much more to do, and we'll have more to share in ...

We will use a Cloud Flow to perform the FetchXml query, which will be called from Power Fx. This side-steps any delegation issues since we know that the query is always run on the server. 1. Create a new instant cloud flow (I will call it "PowerApp: FetchXml Query"). Select Power Apps as the trigger. 2.

Cooper, thanks for creating this and making it available to users. @masque The class is extremely interesting and useful. I am not an expert but not a beginner either. And I am learning a lot of things I should have known much earlier. Very happy with my purchase. Thanks a lot! @Kingfloyd I strongly recommend Cooper's instructional video series.

For over 20 years, Cooper Power Systems (a division of Cooper Electric Supply) and a Sonepar USA company has been providing reliable, user friendly generator rentals for the New York, New Jersey and Pennsylvania region . We understand the importance of rental power and we are committed to meeting all of
