In 2017, Cupertino received the SolSmart Gold designation for implementing programs and practices that make it faster, easier, and cheaper for residents and businesses to adopt solar energy. Additionally, Cupertino has installed solar power systems at the City's Service Center and Environmental Education Center. "Not only will Cupertino's actions help attract solar industry ...

Permitting and inspection processes ensure that a building is safe for solar and that the solar array is installed correctly and safely. Improving these processes can reduce solar soft costs by reducing the time and labor it takes for a solar installer/contractor to fill out and submit the forms and for a local government to process them.
