

Datang Power plans to invest in wind power projects

Will China Datang's green energy projects advance low carbon and net zero carbon?

Two green energy projects of China Datang Corporation Ltd. that broke ground on Nov 22 are expected to advance low carbon and net zero carbon transformation.

What is Datang Duolun?

On Nov 22, 2023, Datang Duolun 150MW Wind-Solar Hydrogen Production Demonstration Project, China's first medium-large off-grid demonstration project of deep coupling coal chemical technology for wind and solar hydrogen production, and the 175MW Renewable Energy Substitution Project of Datang Duolun Coal-fired Self-owned Power Plant broke ground.

How many generator units does Datang Duolun have?

The 175,000-kw renewable energy substitution project of the Datang Duolun coal-fired self-owned power plant is designed with 286.25-megawatt generator units.

Why is ESG important for China Datang?

Minister, and Chief... China Datang Senior Executives Hold Talks with Chairman and CEO of... ESG factors are crucial elements throughout of our investment lifecycle. We support long-term, sustainable growth that generates economic and social benefits for all individuals and communities.

The project is developed and owned by China Datang. The company has a stake of 100%. The wind power project consists of 100 turbines, each with 2MW nameplate capacity. Development ...

Guizhou Pingtang Datang SDIC Wind Farm is a 100MW onshore wind power project. It is planned in Guizhou, China. According to GlobalData, who tracks and profiles over 170,000 power ...

These new energy projects are an important measure for Datang Power Generation to actively respond to the national new energy development policy, promote green energy transformation, and optimize the ...

The total planned installed capacity of the project is 245MW, and 35 Shanghai Electric 7MW offshore wind turbines will be installed. The project has a total investment of 5.077 billion yuan, ...

Heilongjiang Datang Yilan Fuqiang Wind Farm is a 49.5MW onshore wind power project. It is located in Heilongjiang, China. According to GlobalData, who tracks and profiles over 170,000 ...

The meeting required that we should make every effort to promote the construction of three batches of large-scale wind power and photovoltaic bases, actively promote the high-quality ...

Datang Power plans to invest in wind power projects

Chinese State-owned firm China Datang Corporation, a large-scale power generation company, said it plans to invest \$600 million in solar and wind power projects in the country. Zou Lei, the chairman of the company, ...

The project is being developed and currently owned by China Datang. It is a Combined Cycle Gas Turbine (CCGT) power plant. Development status Post completion of the construction, the ...

The project was developed by China Datang. Development status The project is currently active. The project got commissioned in November 2010. Contractors involved Sinovel Wind Group ...

Sinovel Wind Group was selected as the turbine supplier for the wind power project. The company provided 33 units of SL1500/77 turbines, each with 1.5MW nameplate capacity. For more ...

Since 2022, Datang Power has accelerated the expansion of new energy projects. On May 27th, Datang Power plans to invest 1.945 billion yuan in the construction of 80MW photovoltaic project in Jiangxi Gao'an ...

Datang Danzhou CZ3 offshore wind power project is the first batch of offshore wind power projects approved by the State in Hainan Province during the 14th Five-Year Plan period, and ...

The total investment of the project is about 2.582 billion yuan, and the capital accounts for 20% of the total investment. These new energy projects are an important measure for Datang Power Generation to actively ...

The project is developed and owned by China Datang. The company has a stake of 100%. The project generates 116,000MWh of electricity. The wind power project consists of 16 turbines, ...

The project is developed and owned by China Datang. Development status The project is currently active. The project got commissioned in August 2014. Contractors involved Sinovel ...

Shaanxi Yulin Jingbian Datang Wind Farm is a 50MW onshore wind power project. It is located in Shaanxi, China. According to GlobalData, who tracks and profiles over 170,000 power plants ...
