

This EMS framework ensures optimal energy distribution between thermal units and BESS across different areas of the power system, enhancing SOC management and reducing associated ...

The Distributed Energy Buyback Scheme (DEBS) offers eligible customers a payment for electricity they export to the grid, including from rooftop solar PV systems, batteries and electric vehicles. The DEBS pricing structure ...

A part of this transformation will include a proliferation of Distributed Energy Resources as well as a focus on customer choice and participation. We'll help to achieve this through a Distributed System Platform that will forecast, ...

The Belshi project helps address this vulnerability by adding solar capacity and supports Albania's Energy Strategy and National Renewable Energy Action Plan. Under the Action Plan, Albania ...

In the interconnection and optimized operation of the classical hybrid AC/DC microgrids (HMG), the conventional line-frequency transformer cannot block grid faults and comprehensively ...

The EU plans to back Montenegro's SCADA roll-out The second project in Montenegro is the introduction of SCADA in the power distribution system, estimated at EUR 26.5 million, with ...

Fortis Energy received approval from the Albanian government for the construction of a 62 MW solar power plant in the country's southeast. It is allowed to operate the facility for 49 years ...

Under the Action Plan, Albania aims to increase the share of renewables in total output to 54% by 2030, including 490 MW of solar PV capacity as part of a broader 640 MW target for non-hydro ...

A new 50 megawatt (MWp) solar photovoltaic plant will be constructed in Albania with 39.2 million euros in financing from the European Bank for Reconstruction and Development (EBRD) and ...

The increasing demand for clean energy carriers and the growing need for decarbonizing hard-to-abate sectors necessitate a comprehensive understanding of hydrogen energy systems and ...

Transformative solutions for a reliable, resilient and intelligent energy future. The falling costs and growing adoption of distributed energy resources (DER) such as renewable energy, storage systems and microgrids ...

Distributed energy systems albania
