Find Out if Solar is Right For You! Our energy advisors are here to help. What is your average monthly electric bill? Virginia homeowners, ditch the high bills!

Does Dominion Energy South Carolina offer rooftop solar?

Please note that Dominion Energy South Carolina electric customers may participate in either our Rooftop or Community Solar programs, but not both. Work in consultation with an independent solar installer to apply to participate in our Rooftop Solar program.

Does Dominion Energy accept new applications?

After September 1, 2024, we will no longer accept new applications. At Dominion Energy, we're committed to helping our customers have an energy-efficient and comfortable home. This program, available to eligible customers in our Virginia service territory, offers incentives for the installation of solar photovoltaic (PV) systems.

Does Dominion Energy Solutions offer a zero down payment solar loan?

Dominion Energy Solutions will provide you with zero down payment solar loan options to help pay for solar. From cash purchases to loans to tax credits, you'll get all the information you need to make a smart decision. From vetting installers to approving system designs to financing your system, we'll be with you every step of the way.

Is Dominion Energy Virginia a good company?

Dominion Energy Virginia's rates remain below the national, mid-Atlantic and east coast averages. As the company develops more renewables, which require no fuel, customers will see the benefit of lower fuel costs on their monthly bills.

What does CSP do with Dominion Energy?

CSP has partnered with Dominion Energy to offer their community solar product to Dominion Energy electric customers across South Carolina. CSP serves as the administration, managing the customer care and enrollment functions of this program. Do I need to own a home or building to participate?

In the company's filings with regulators, Dominion said it has connected 75 solar projects capable of producing 36 megawatts of power to the grid to date, but there are 82 projects with a total capacity of almost 43 megawatts in line for interconnection.

As Dominion Energy works with solar developers to build more solar facilities, the program will add on additional solar projects. As the number of solar facilities increase, so will our ability to accept new enrollments. While Dominion Energy brings more solar capacity to the grid for this program, you can still support renewable energy.

What it means is that, for example, a 15-year old solar panel is covered to function properly at 85% performance efficiency, whilst a 20-year old one at 80%. Dominion Energy Solutions offers best-in-class warranties. As a final note on warranties, Dominion Energy Solutions offers best-in-class warranties on all their systems.

That year, Dominion Energy decided to offer solar performance payments to any customers that signed up for solar. This program, named Dominion Solar Purchase Program, provided premium payments to solar customers and made the switch much easier and more appealing. 2. Does going solar in Virginia make sense?

Dominion Energy Virginia installed more than 3,000 solar panels on the rooftop of Western Branch High School in Chesapeake, Virginia in 2016. The 800 kW (ac) system is capable of generating enough electricity at peak sunlight for about 200 homes and is one of the largest single rooftop solar arrays in Virginia.

The solar panels at Dominion Energy's Black Bear Solar project. (Charlie Paullin/Virginia Mercury) Dominion has a requirement to have a percentage of their seed mix be pollinator friendly, which helps the bees, Burden said. That resulted in a traditional turf mix planted under the panels surrounded by native pollinator plants: white clover ...
