When will a 1 GW solar park be built in Dubai?

Sourced from: The emirate of Dubai announced in January 2012 that a 1 GW Mohammed bin Rashid Al Maktoum Solar Park would be built in phases and completed by 2030 in Seih Al Dahal, around 50 km south of Dubai city, to meet its renewable energy supply target.

What is Dubai's largest single-site solar park?

One of the most extensive clean and renewable energy projects that Dubai Electricity and Water Authority (DEWA) is implementing to achieve this target is the Mohammed bin Rashid Al Maktoum Solar Park, the largest single-site solar park in the world. It has a planned capacity of 5,000 MW by 2030 with investments up to AED 50 billion.

How sustainable is Dubai solar park?

It has a planned production capacity of 5,000 MW by 2030, with investments totalling AED 50 billion. When completed, it will save over 6.5 million tons of carbon emissions annually. The Mohammed bin Rashid Al Maktoum Solar Park contributed to DEWA winning the Best Sustainable Project of the Year in the UAE at the 2014 MEED Quality Awards.

Is Masdar developing a solar park in Dubai?

The project was inaugurated in November 2020. Masdar is developing the sixth phase of this iconic project. Masdar, as part of a consortium, developed the third phase of Mohammed bin Rashid Al Maktoum Solar Park (MBR) Solar Park in Dubai.

How many GW will Dubai's solar power plant generate?

The plant was implemented by the Dubai Electricity and Water Authority (DEWA). The first phase of the project was commissioned on 22 October 2013. At the end of 2020 the solar PV complex reached a generating capacity of 1.013 GW with the aim to reach 5 GW by 2030.

Who built the 3rd phase of Dubai solar park?

Dubai Electricity and Water Authority (DEWA) built the 3rd phase of the solar park using the Independent Power Producer (IPP) model in partnership with a consortium led by Abu Dhabi Future Energy Company (Masdar) and EDF Group, through its subsidiary EDF Energies Nouvelles at an investment of AED 3.47 billion.

The Dubai Solar Plant is the largest single-site solar energy project in the world, based on the Independent Power Producer (IPP) model. It has been implemented by the Dubai Electricity and Water Authority (DEWA).
