Will Eaton buy Cooper Power Systems?

Eaton Corp., the power and control systems giant, announced Monday that it would acquire Cooper Power Systems, a powerhouse in electric grid gear, catapulting the 90-year-old Eaton into a new class of smart grid competition.

Did Eaton acquire Cooper Industries plc?

Diversified industrial manufacturer Eaton Corporation plc and electrical equipment supplier Cooper Industries plc announced that Eaton has completed its acquisition of Cooper. The acquisition was announced on May 21, 2012 and combines Eaton and Cooper into a new, premier global power management company named Eaton Corporation plc.

Who is Eaton power systems?

Eaton's Cooper Power Systems Business (formerly Cooper Power Systems) a subsidiary of Cooper Industries is a global manufacturer and provider of power delivery apparatus for the utility, commercial, and industrial markets in the medium voltage and high voltage ranges.

Where do Eaton's Cooper Power Products come from?

Eaton's Cooper Power series products have roots from multiple sources, including Kyle, Line Material, McGraw-Edison, RTE, Kearney, and Cooper Power Systems. Each company played a key role in the development of modern distribution systems. Many of the common pieces of equipment and practices in use today were developed by these companies.

What does Cooper do for Eaton?

“Cooper adds proven capabilities in utility power distribution, smart grid, lighting, lighting controls, wiring devices, and safety solutions to Eaton's strengths in power quality, power distribution and energy services,” Cutler said.

Who is Eaton Corporation plc?

Eaton Corporation plc is a diversified power management company providing energy-efficient solutions that help our customers effectively manage electrical, hydraulic and mechanical power.
