

The East African Crude Oil Pipeline (EACOP), a \$10 billion, 1,443-kilometer artery connecting Uganda's Albertine Graben to Tanzania's Tanga Port, is more than an infrastructure project--it ...

China's LNG imports have declined for eight consecutive months, down 12% y/y in June 2025, due to increased domestic gas production. Trade tensions with the U.S. and a 125% tariff have ...

Ukrainian steel pipe and railway wheel producer Interpipe has announced that it is playing a pivotal role in one of the most ambitious engineering projects in Europe - the complete ...

Summary This regularly updated dataset aggregates daily data on European natural gas import flows and storage levels. It provides readily available insights into European natural gas supply. The flow of Russian gas has drawn ...

By Anifowoshe Oladipupo Abuja is poised for a significant energy transformation as an ambitious gas pipeline project, set to primarily benefit the Federal Capital Territory and surrounding ...

In order to preserve the achievements of utility cost reductions, Hungary is building a new oil pipeline with Serbia, which could be operational as early as 2027, Foreign Minister Péter ...

Hungary and Serbia will jointly build a new oil pipeline aimed at safeguarding affordable energy supplies amid ongoing EU efforts to reduce dependence on Russian energy, Hungarian ...

Tallgrass's new pipeline will undoubtedly play a pivotal role in ensuring the reliable supply of this essential resource for years to come, supporting economic growth and energy stability across ...

Tallgrass Energy Partners LP is preparing to launch a binding open season on Monday (July 21) to solicit firm commitments for a pipeline project that would move up to 2.4 Bcf/d of natural gas ...

Turkish pipe manufacturer Erciyas Çelik Boru Sanayi A.S. has announced that it has secured a major contract to produce and supply a 23.5-kilometer hydrogen pipeline within the scope of a ...

LNG allows utilities to store natural gas in liquid form at sites connected to transmission or distribution pipelines, providing backup supplies on peak demand days. This is especially ...

As supply chains adapt to the shifting geopolitical landscape, liquefied natural gas (LNG) is emerging as a critical buffer. It promotes energy security by enabling rapid response to supply shocks. By displacing carbon-intensive fuels like coal ...

Energy pipeline supply

The National Energy Regulatory Authority (ANRE) granted, on Tuesday, the establishment authorization for the upstream supply pipelines related to the natural gas production activity ...

Pipelines quietly transport most of the world's oil and gas with unmatched efficiency and reliability. Strategic pipelines influence geopolitics, bypass chokepoints, and secure energy supply routes.

By Anna Shiryayevskaya and Elena Mazneva Global supply of liquefied natural gas is set to surge the most since 2019 next year, primarily driven by production additions in North America, the International Energy Agency said. The ...

Luxembourg-based steel tube producer Tenaris has secured a major contract to supply key infrastructure for Suriname's first offshore oil development, the GranMorgu Project, led by French energy giant TotalEnergies.
