

Existing battery projects in California and Texas see upside, while hybrid storage bets in the Midcontinent Independent System Operator (MISO) territory and the Southeast face shrinking margins under the revised tax credit rules.

Hybrid models, thermal energy storage and smart solar tracker systems as strategies for enhancing energy accessibility were discussed in the study. Data sources include secondary ...

In a landmark move to position Bihar as a green energy leader, the state government formally launched the Bihar Policy of New and Renewable Energy Sources 2025 and Bihar Policy for ...

The Thailand-Cambodia border conflict, now erupting into its most severe escalation since 2011, has thrust Southeast Asia into a volatile geopolitical and economic quagmire. With artillery exchanges, airstrikes, and cross-border ...

It also provided services to local governments in policy revision and industry layout planning; released multiple research outcomes such as the "2025 Energy Storage Industry White Paper"; established monthly and quarterly data ...

Latest Cambodia tenders and bids. Source new opportunities with the biggest and most comprehensive platform for Cambodia tenders and eProcurement. Track over two thousand verified tenders from public and ...

Cambodia does not yet have a dedicated national hydrogen policy or strategy. However, the government has shown interest in promoting renewable energy and energy efficiency, which indirectly supports the potential development of a ...

Chinese investors are set to invest \$500 million into a new solar power plant in Kampong Speu province. Construction on the 600-hectare site will kick off in mid-July 2025, promising 1,500 to ...

The decree explicitly classifies energy storage facilities and their associated grid connection infrastructure as "public utility" for the first time. This grants them legal support equivalent to ...

China's battery-grade lithium carbonate prices rebound to 72,900 yuan/ton amid policy shifts and demand surge. Explore drivers behind the 20% monthly gain and energy storage market impacts.

As the sun rises over the Mekong and the subcontinent, a new energy alliance dawns--one fueled not by coal or oil, but by collaboration, innovation, and clean power. India and Cambodia, two nations at different stages
