

Daniel Danna, rapporteur for regulator the Agência Nacional de Energia Elétrica's (ANEEL) Public Consultation 39, of 2023, told Brazil's Chamber of Deputies initial energy storage rules would ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

This comprehensive guide will help residential solar & energy storage installers/distributors avoid common solar battery installation mistakes, ensuring long-term, reliable energy storage ...

The integration of isobutane in energy storage solutions faces several significant challenges that hinder its widespread adoption and optimal utilization. One of the primary obstacles is the ...

India has reached a significant milestone in its transition to clean energy by achieving 50% of its installed electricity capacity from non-fossil fuel sources, surpassing its 2030 target under the ...

This paper presents the comprehensive design, simulation, and experimental validation of a grid-tied hybrid renewable energy system tailored for electric vehicle (EV) charging applications. ...

Mogadishu (HOL) -- Djibouti and Egypt have signed a landmark agreement to build a 276.5-kilowatt solar power plant in Djibouti. The deal, signed during a virtual meeting, is expected to boost Djibouti's energy independence ...

Agência Nacional de Energia Elétrica (ANEEL), Brazil's electricity regulator, will publish initial energy storage regulations in the second half of 2025, with two additional consultation ...

According to the requirements of the notice, the recommended data center must meet a series of strict and clear indicators. Among them, the second level and above of the "Green Data Center ...

On July 17, Gotion High-Tech, a Chinese battery manufacturer, launched production of its 5MWh Gotion GRID energy storage system at its Göttingen, Germany facility, as announced on its ...

Today, Djibouti imports most of its energy. This dependency weighs on our economy, makes our system vulnerable to external fluctuations, and hinders universal access to affordable electricity.

The precise regulation of distributed energy storage resource pools can enhance the capacity to stabilize the peak-valley load difference of the power grid, mitigate load fluctuations, ensure ...
