

In the long-ago days of 2019, buzzy startup Energy Vault raised a record amount of capital to produce a fundamentally new climate technology: a specialized crane that stores clean energy by stacking heavy blocks. But the company has since departed from that initial vision, revealing the challenges of taking big swings at clean energy problems while trying to actually ...

Energy Vault offers renewable energy storage products combining an innovative crane design that lifts specially designed, massive composite blocks with a proprietary, cloud-based software platform that orchestrates the storage and discharge of electricity. Energy Vault has already interconnected a 5 MW Commercial Demonstration Unit (CDU) of the gravity ...

It is an extraordinary energy storage facility that has recently been completed in the Rudong district of Shanghai, China. Built by the Ticino-based company Energy Vault, the impressive building, some 120 metres high, houses hundreds of concrete blocks that are moved up and down by lifts. The blocks weigh several tonnes and are controlled by special AI ...

At Energy Vault, we envision a planet where science and deep respect for our natural resources herald creative technological advancements in sustainable, clean, renewable energy. Our team of energy industry experts are pioneering a faster journey to the decarbonization of our planet by reducing the cost of abundant clean energy, delivering valuable, grid-scale energy storage ...

ESG score from S& P Global increased 200% from 2022, placing Energy Vault in the 94th percentile of reporting industry; Energy Vault shares early-stage data and 2023 activations of newly established sustainability infrastructure, systems, protocols, standards, and metrics from which the organization measures current and future success

Texas is set to host the first gravitational storage facility in a Western country: it will be built by Energy Vault, a Swiss company that's a pioneer in the case of this innovative technology. Through an agreement, EGP and Energy Vault will share information about the technology at all stages of the project and evaluate possible joint developments in areas of ...
