Note this is not an official Focusrite sub. This is for community support for questions, comments, tips, tricks and so on for Focusrite audio products. ... If you've got a USB-C power supply (I used one that came with an iPad), that seems to work. Edit: Focusrite are sending me a new power supply, but that doesn't solve the issue for me. There ...

Condenser mics require a DC power supply (transmitted through an XLR cable) in order to operate the active components used and therefore, a voltage (48V, but can range from 44V to 52V) is sent down the XLR cable to power the microphone. This voltage is commonly referred to as phantom power. Note that, even with phantom power on, the mic's ...

I do this all the time without plugging into a computer, tablet or phone. As I play a Strat, and like to practice at night, and not disturb anyone, I use my iPad charger direct to Focusrite 2i2, and plug in either channel using the 1/4 inch jack for the guitar. Then just plug the headphones into the Focusrite to hear.

The Focusrite RedNet R1 is a desktop remote controller that unleashes the power of Focusrite Red interfaces. ...
