

In Africa, where every percent of battery matters, these phones prove you don't have to sacrifice performance for endurance. For anyone seeking true "Battery Kings," look no further than the ...

Nokia has made a bold return to the competitive Indian smartphone market with the launch of its feature-packed Nokia NX 5G, priced attractively at just INR12,499. This new release marks ...

In Li-ion battery systems, poor consistency among cells is widely recognized as a core issue impacting the performance, safety, and lifespan of the entire battery pack. It not only limits the effective energy output but also introduces risks ...

Any lithium battery's brain, the battery management system, ensures balance, safety, and optimal performance. The smart BMS in Bluetooth lithium batteries allows communication protocols to ...

In terms of powertrain, the pure electric version comes standard with a 100 kWh CATL battery and 800V system, offering a CLTC range of 705 km. The rear-drive version delivers 227 kW, while ...

Berkeley Lab AMCR researchers have developed a machine learning framework that dramatically accelerates battery lifespan predictions--using far fewer experiments--by combining expert ...

At charged interfaces, the electropositive aprotic hydrogen ($H^{?+}$) and Li^{+} ions exhibit comparable electrostatic responses, resulting in their competitive effect for the solvent oxygen ...

Tesla has applied for a sales license for a new variant of the Model 3 sedan in China. The badge on the rear reads Model 3+, and it is a single-motor rear-wheel drive (RWD) trim, which, however, features a more expensive ternary NMC ...

The projects all seek to optimise and validate battery systems to maximise performance and improve efficiency and lifetime. In doing so, they will advance the technologies a step closer to ...

Battery Performance and Charging Innovation The smartphone houses a 4600mAh battery that, combined with AMOLED display optimization and efficient processor design, easily supports ...

It is equipped with a 115kWh ternary lithium battery, offering a CLTC range of over 650km, and supports 800V high-voltage fast charging. The range-extender version retains the 1.5T range ...
