U.S. private-equity firm Kawa Capital Management Inc. agreed to take over Conergy AG, once Germany's biggest solar company, two weeks after the Hamburg- based company filed for bankruptcy.

(ADPnews) - Jan 20, 2010 - South Korean photovoltaic (PV) engineering company Conergy Korea said yesterday that it had peeled off from the German solar group Conergy (ETR:CGY) and will operate under the name OSolar.

The company manufactures solar components, such as photovoltaic (PV) modules, mounting systems, and off-grid and grid-connected inverters. Its products have generated more than 2.2 gigawatts of renewable energy.

BERLIN (AP) -- Germany's Conergy AG has become the latest victim of a global solar panel price war, which has already cost tens of thousands of jobs in the country in recent years. Hamburg-based Conergy on Friday filed for insolvency and said it hoped to find an investor to continue the business.

Conergy was a multinational renewable energy company headquartered in Singapore. It was founded in Hamburg, Germany, in 2000 by former CEO Hans-Martin R#252;ter, and specialized in the development, operation and maintenance of photovoltaic power plants and plant components.

ConEnergy is a Solar Energy company. Over the past decade, they have deployed over 1 gigawatt of renewable energy around the world including 400 megawatts (MW) within the Group's major projects portfolio. In fact, approximately 1 in every 10 solar energy systems worldwide has been supplied, installed and/or developed by Conergy.

Conergy was founded in 1998 in Germany and, within this relatively short period, has become one of the leading companies in the green energy industry. Active in more than 40 countries, Conergy has supervised the planning and construction of hundreds of solar plants worldwide, with a total output of more than 600 megawatts.

Solar developer Conergy's dramatic business turnaround now has a cherry on top -- in the form of a just-announced minority equity investment from the energy trading arm of giant European...

German solar company conergy

German downstream solar company Conergy has become profitable again and is getting ready for an initial public offering (IPO) in the next 12 to 24 months, its head said as cited by the Financial Times on Tuesday.

The production of the Conergy solar panels at the German factory in Frankfurt on the Oder takes ten years of production, having been started in the year 2007.. Conergy: synonymous with reliability and progress. The production site covers 16,000 square meters and employs about 300 people and a production capacity of about 340 MWp, which is one of the ...

The "start of a "new" Conergy" has been heralded by the company as Kawa Capital Management finalised its acquisition of the global Conergy sales and service units. ... whereby Conergy is one of the few German solar companies to emerge from insolvency in such a strong position. I am very happy to closely work with Philip in the future on ...

May 2, 2013 - German solar company Conergy (ETR:CGYK) has settled a dispute with former managers and insurer AIG Europe Limited, dropping its damage claims. The company said it would receive about EUR 6.3 million (USD 8.3m) as part of the settlement.

The leading solar solution provider, with offices in Singapore, US, India, Taiwan and China. Our products continue to be manufactured with German technology and quality, so all GermanSolar products are attractively designed, durable, and engineered for top-notch functionality.
