

Good domestic solar power generation brand

What are the best solar panel brands?

Find out what owners think of JA Solar, Jinko Solar, Longi, Solaredge and Trina Solar solar pv panels to find the best solar panel brand for you.

What are the best solar panels in the UK?

According to our findings, the brands with the best solar panels include REC Group, Sunpower, and AIKO. What is considered the 'best' solar panel in the UK will vary depending on who you ask, and what metrics you value. Some homeowners may prefer a low-cost solar panel over one that's highly efficient, for example.

How do I choose a solar panel brand in the UK?

Product availability in the UK can also determine which brands installers are able to fit. When you talk to different installers (we'd recommend getting three quotes), use our research on solar panel brands to help you choose between them. Read our full buying advice for solar panels.

Are solar panels a good choice for your home?

Solar panels are a popular renewable energy system for UK homeowners, self builders and renovators. In fact, over 220,500 solar panel installations were completed in 2023, according to data from the MCS (Microgeneration Certification Scheme). But how can you be confident you're buying the best solar panels for your home and lifestyle requirements?

Are LG solar panels still a popular brand?

Marketed as a premium model, LG's NeON H BiFacial solar panels are the last ones to be manufactured by tech giant LG. Once an industry leader, LG left the solar panel sector in mid-2022. However, the NeON H will remain on the market while supplies last.

What are the most powerful solar panels?

Efficiency Trina's Vertex N solar panel range takes the pick for the most powerful solar panels on today's market, with a power output between 685 - 710W. This makes them a great option for large homes with high energy demands, or even for very small homes with limited roof space, as solar expert Josua Pearce explains:
