

The intelligent modular microgrid market is experiencing robust growth, driven by increasing demand for reliable and resilient power solutions, particularly in remote areas and regions with ...

Memphis Light, Gas and Water (MLGW) is taking a major step toward grid modernization with the deployment of a dedicated private 5G wireless network across Memphis and Shelby County in ...

The national government has launched an ambitious expansion plan for electric transportation, focusing on the modernization of energy infrastructure through private investment.

The heart of this tender, which also comes officially as AlmaGBA, is a strategic desire to stabilize the grid of the Buenos Aires Metropolitan Area (AMBA). Similar to most Latin American cities, AMBA is under the pressure of expanding ...

Grid Modernization: Companies involved in smart grid tech, battery storage, and offshore wind (e.g., Siemens Energy, Vestas) stand to benefit as Ireland accelerates infrastructure upgrades.

Grid Modernization: Upgrades to power grids worldwide require high-voltage capacitors for stability and efficiency enhancements. Electric Vehicle Adoption: The increasing popularity of ...

The regulator's dilemma: balancing grid modernization with rising power bills Load growth and aging infrastructure require investment, but customer electricity prices are up 4.5% nationally ...

The global large capacity power transformer market is experiencing robust growth, driven by the increasing demand for electricity globally, particularly in developing economies undergoing ...

North America: This region is expected to dominate the EMS market due to robust investments in grid modernization, stringent environmental regulations, and the early adoption of smart grid ...

Key drivers include the modernization of aging grid infrastructure, the need for improved power quality, and the rising adoption of smart grid technologies. Furthermore, government initiatives ...

A symposium on China and Argentina joining hands to explore paths to modernization was held Thursday at the University of Buenos Aires, bringing together over 60 experts, scholars, and ...

The bill also accelerates permitting for transmission projects in Priority Investment Areas (PIAs), signaling a shift toward proactive modernization. Investment Opportunities in Grid Resilience ...

Smart Grid Development: The integration of primary frequency modulation control systems with smart grid technologies enables optimized grid operation. Government Regulations: Stringent ...

This week, the Argentinian government opened bids for the AlmaGBA tender, initiated in February 2025 to procure 500 MW of battery energy storage system (BESS) capacity for critical nodes ...

The global composite cross arm insulator market is experiencing robust growth, driven by increasing demand for reliable and efficient power transmission infrastructure. The market's ...

Grid Modernization: Smart grid initiatives and the need for improved grid reliability are pushing the adoption of advanced porcelain insulators. Challenges and Restraints in Porcelain Insulators ...

The global line insulators market is experiencing robust growth, driven by the escalating demand for reliable power transmission and distribution infrastructure, particularly in developing ...

"Policymakers ordered utilities to integrate - or at least consider - alternative and emerging technologies like energy storage, grid-enhancing technologies, and non-wires alternatives ...

The global Digital Power Grid Transmission and Distribution Substation market is experiencing robust growth, driven by the increasing demand for reliable and efficient power delivery ...

The global Transformer Monitoring Solutions market is poised for significant growth, with a projected market size of \$2045.8 million in 2025 and a Compound Annual Growth Rate (CAGR) of 3.5% from 2025 to 2033. This expansion is ...

The pilot plan consists in having five thousand smart meters installed in different residential areas before the end of the year. The Smart meters will be installed along the southern districts of Greater Buenos Aires ...

Just to take one example, by 2030 EVs are expected to constitute over 60% of global vehicle sales, placing substantial pressure on charging infrastructure and grid capacity. As Eurelectric ...

Grid modernization buenos aires
