

# Guatemala city energy storage research and development

Our mission is to advance the development and implementation of sustainable energy storage materials and technologies, focusing on the circular economy of electric vehicle (EV) batteries, bio-energy production, and green ...

Electrochemical energy storage has the characteristics of basically unaffected by the natural environment, large charge and discharge power, and high system efficiency. Under ...

Learn more about the innovative energy storage projects happening at NREL. NREL's electrochemical storage research ranges from materials discovery and development to advanced electrode design, cell evaluation, ...
