

Has anyone installed photovoltaic panels recently

I heard from a relative who have a solar installation on the roof of their house that it is more than that. The pay back happens in about 10-15 years. Also the solar panel prices have also gone ...

I had my panels installed 18 months ago, and this is how all solar rooftop panels work that are connected to the public grid. You produce electricity for the public grid and you get a rebate on ...

So far, Tesla is \$20,000 - \$30,000 less expensive than similar system quotes I've received in Minnesota. But the stories I'm reading on Reddit have me wondering if all the savings is worth the potential frustration and issues that seem to be ...

I recently had solar and batteries (pwrcell) installed and ended up getting an electric car ahead of schedule (Kona EV). I have decided to just go ahead and electrify my home (gett a couple of ...

Has anyone installed solar panels on their house or used the Home Energy Loan Program? What was the process like? Bought a house recently and thinking of putting in solar panels a little bit ...

Explore the UK's solar photovoltaic capacity growth, surpassing 16GW in 2024. Discover regional solar installation trends in England, Northern Ireland, Scotland, and Wales, and understand factors driving disparities in ...

I recently had panels installed in 2 series on either side of my ridge line and now have rfi when trying to listen to fm radio. A SolarEdge tech remotely turned off each series and ...

The issue with installing self-made DIY solar panels is that many of these certified engineers will refuse to certify solar panel units that they did not personally install. In ...

The average cost of a solar panel system for a typical three-bedroom house in the UK is £9,600, including a battery. Solar panels can save you up to £1,014 annually, totalling nearly £30,000 of ...

It could or couldn't happen. SE recently has become less reliable again, so there's a chance your inverter dies and you're out for 2 months or whatever. It's just a risk you take. Micro inverters ...

Since i don't know anyone who has a system here, I'm a bit cautious about making that investment, but still keen on joining the solar club. I recently found out about some "plug and ...
