

Where is Heckert solar made?

Did you know that Heckert Solar ...Made in Germany. We produce exclusively in Germany. The first Heckert solar module was manufactured in September 2003 and one was proud of the 6 MW annual production capacity. 20 years later, Heckert Solar disposes of a manufacturing capacity of 800 MWp per year.

What is Heckert solar?

From high-performance mono- or polycrystalline modules to system technology, Heckert Solar offers high-performance and durable photovoltaic products.

Is Heckert solar a good brand?

Thanks to the good reputation that Heckert Solar and the multi-certified NeMo® modules enjoy in the PV industry, the company has now received the "Top Brand PV" seal in the Module Germany category for the fourth time in a row.

Does Heckert solar offer a home storage system?

With the integrated, backup power capable home storage system Symphon-E, Heckert Solar offers its own storage system for the first time. The modular complete system impresses above all with its technical maturity and ready-for-future ability. It perfectly rounds off the existing product range of Heckert Solar.

Are Heckert solar modules safe?

Solar modules meet the strictest requirements with around 60 quality and safety tests. Deputy Minister of Energy of South Brazil, Evandro Fontana, visits Heckert Solar in Chemnitz and discusses ways of opening up the market with the module manufacturer from Chemnitz.

Who are Heckert solar & wattkraft & interfloat?

Heckert Solar, Wattkraft and Interfloat are planning to invest around EUR2 billion (\$2.18 billion) in three different manufacturing facilities that will produce everything from polysilicon to solar modules. From pv magazine Germany

Heckert Solar's solar modules bring you flexibility. All modules delight thanks to their stability, performance and Made in Germany quality. We work solely with certified materials from leading manufacturers. And with the NeMo® series, ...

Mit der Verabschiedung des Solarpaket 1 sollen der Bau und Betrieb von Photovoltaikanlagen  
entb&#252;rokratisiert werden. Das Ziel ist, Privatpersonen, Vertriebspartnern sowie Unternehmen die  
Installation und Nutzung von Solarenergie zu erleichtern, damit der Ausbau weiter gef&#246;rdert werden  
kann - auch in Hinsicht auf das Erreichen der Klimaschutzziele.
