

How much does a gearbox accumulator cost

How much does a new gearbox cost in the UK?

The cost of a new gearbox in the UK can vary significantly depending on the type of gearbox and your vehicle's make and model. A manual gearbox replacement can cost anywhere from £500 to upwards of £3,000. An automatic gearbox replacement can cost anywhere from £1,000 to upwards of £5,000.

How much does an automatic gearbox repair cost?

The price to repair an automatic gearbox can vary greatly. The price depends on several factors such as transmission type, car age and the amount of damage. Generally speaking, an automatic gearbox repair will cost you somewhere between £300 to £600.

Is a gearbox replacement worth it?

The gearbox is one of the most important parts in a car and unfortunately, gearbox damage is one of the most expensive types of car damage. As in most cases the value of the car is higher than the cost of repair, a gearbox replacement is worthwhile.

How much does a reconditioned gearbox cost?

However, savings can be made by opting for a reconditioned gearbox rather than a new one. For example, a reconditioned gearbox for a VW Golf only costs around £1,200 - £1,800. However, these are only average values. Depending on the car model, the costs can be significantly higher. If it is a defective manual gearbox, the costs are lower.

Can an automatic gearbox be repaired?

Yes, automatic gearboxes can be repaired. However, be aware that this can be complex and labour intensive. Automatic gearbox repairs are typically one of the most expensive repairs you will make on your car. How much does an automatic gearbox repair cost?

How can I reduce my gearbox replacement costs?

1) A simple way to reduce your gearbox replacement costs is to choose a reconditioned gearbox. A difference is made between partially reconditioned gearboxes, where only defective wear parts have been replaced, and fully reconditioned gearboxes, where all wear parts have been replaced as a precaution.
