

How to receive the energy storage cabinet certificate

Does your property have an Energy Performance Certificate?

Energy Performance Certificates became a legal requirement in 2008. So, any property sold or rented out since then will have had an EPC. This means there is a good chance your property has already got an EPC.

Do I need an Energy Performance Certificate?

If so, you may need an Energy Performance Certificate (EPC) before you can legally advertise it. This certificate provides information about your property's energy efficiency and environmental impact.

How do I get a Domestic Energy Performance Certificate?

You need to contact an accredited domestic energy assessor who will come to your property and perform a visual inspection. Your Energy Performance Certificate has to be completed by a qualified and accredited domestic energy assessor. You can use our EPC service to get and compare instant quotes from local Domestic Energy Assessors.

What is an energy performance certificate assessor?

An Energy Performance Certificate assessor is a person who is accredited to perform home inspections and award EPCs. When should the Energy Performance Certificate first be available for the tenant to view? It's true that you have up to 7 days to present an EPC when putting a property on the market.

Do buildings need an Energy Performance Certificate?

Buildings protected as part of a designated environment or because of their special architectural or historical merit are exempt from the requirements to have an energy performance certificate insofar as compliance with minimum energy performance requirements would unacceptably alter their character or appearance.

What is an Energy Performance Certificate (EPC)?

An EPC is intended to provide prospective buyers and tenants of a building with correct information about the energy performance of the building and practical advice on improving such performance.
