How much do industrial solar panels cost?

Nationwide average prices for industrial solar panels are predicted to range between \$1.45 to \$1.56 per watt in 2021 by the SEIA (Solar Energy Industries Association) and the National Renewable Energy Laboratory (NREL). The actual cost of an industrial solar system per watt often varies, and these figures represent national averages.

How much does an industrial solar PV system cost?

Industrial solar PV systems typically cost between £75,000 to £100,000 for a 100kWp/250 panel system. The cost is influenced by factors such as roof type, accessibility, and electrical infrastructure. A detailed survey is usually required for an accurate costing.

How much do commercial solar panels cost?

A way to estimate the installation costs of commercial solar panels is to calculate 0.2p per Watt fitted. That would mean it can cost approximately £2,000 (excl. VAT) to install a 10kW system. For large commercial systems, it may take multiple workers to install them, and the more people required, the higher the costs.

Are industrial solar panels cost-effective?

Industrial solar panels in the UK are cost-effective, particularly for large solar PV systems. Yes, they offer financial benefits and significantly reduce a company's carbon footprint, helping lessen their effect on climate change. Industrial solar panels are typically around 1.8m by 1.1m in size.

How big should a commercial solar panel installation be?

The precise scale of your commercial solar panel installation will depend on how big your business is - small and medium-sized enterprises (SMEs) won't need as big a system as a huge office block. It also depends on the nature of your business.

Where are solar PV cost data taken?

Data are taken from the Microgeneration Certification Scheme - MCS Installation Database. For enquiries concerning this table email [fitstatistics@energysecurity.gov.uk](mailto:fitstatistics@energysecurity.gov.uk). Small scale solar PV cost data for 2023-2024 published. Small scale solar PV cost data for 2022-2023 published. Small scale solar PV cost data for 2021-2022 published.
