

Is the solar panel installation suitable

What is needed to install solar panels on UK homes?

Here's a quick guide to what's needed to install solar panels on UK homes: An installer should visit to determine if the property is suitable for solar panels. They will look at the size and orientation of the roof to decide the best location and angle for installing panels.

Why should you install solar panels?

Installing solar panels lets you use free, renewable, low carbon electricity. You can sell surplus electricity to the grid or store it for later use. According to low-carbon certification organisation MCS, there were more than 183,000 solar panel installations across the UK in 2023.

Can solar panels be installed on a house?

Solar photovoltaic (PV) panels can be installed on a wide range of homes. We've heard from people installing solar panels on bungalows and terraces, as well as semi-detached and detached houses. If your main house roof is unsuitable (a thatched roof, for example), solar panels can instead be installed on a garage or other outbuilding.

Can solar panels be installed on a roof?

Your installers will usually need to erect scaffolding to install solar panels on your roof. Once this is up, solar panels can be installed in a day or two. The inverter will usually be fitted in either a loft or garage. This converts the DC your panels produce to AC that you can use in your home.

How are solar panels installed?

Tiles are lifted so that the installers have access to rafters in the roof. Roof hooks are then inserted onto the rafters before the tiles are placed back, leaving the hooks protruding from the roof tiles. Solar panels are installed onto the mounts. Rails are then secured across the roof hooks so that the panels can lay onto them and be fitted.

Can a landlord install solar panels?

Solar panel installation is generally simpler if you own your home; however, if you're a leaseholder or in a shared-ownership property, you may be able to install solar PV with the permission of your freeholder or landlord. Solar panels can be installed on blocks of flats, but this is often done by the landlord or freeholder.
