Who is Kaco New Energy?

KACO new energy has been a pioneer in inverter technology since 1998. The German manufacturer offers inverters and system technology for solar power systems as well as solutions for battery storage and energy management for large consumers.

Who makes KACO solar inverters?

The KACO new energy GmbH, headquartered in Neckarsulm is one of the world's largest manufacturers of inverters for grid-feed solar power. The product line-up covers the full power range, from single units designed for a family home up to complete systems for solar parks producing megawatts of electricity.

Why should you choose Kaco New Energy?

With the complementary power electronics portfolio of KACO new energy, Siemens is strengthening its technological leadership in the high-growth fields of decentralized energy systems and is providing corresponding benefits to customers.

How many employees does KACO have?

At the end of September 2018, the company had around 379,000 employees worldwide. Further information is available on the Internet at [The KACO new energy GmbH](#), headquartered in Neckarsulm is one of the world's largest manufacturers of inverters for grid-feed solar power.

How efficient are Kaco New Energy inverters?

Kaco New Energy's new inverters have an efficiency rating of 99.1% and a European efficiency of 98.7%. German inverter manufacturer Kaco New Energy has developed two new inverters for applications in commercial and industrial (C&I) solar projects.

Will Siemens acquire KACO a string inverter business?

Siemens has today announced plans to acquire the string inverter business of the KACO new energy GmbH, one of the leading manufacturers of energy-related power electronics, for an undisclosed sum. The project development and EPC activities are not part of the acquisition.

Here, you can download images from KACO new energy free of charge. We are constantly updating the selection of images, so be sure to check back frequently. If you use our media for publication, please indicate "KACO new energy" as the source. We would be pleased to receive specimen copies or references to publications. Thank you!

KACO new energy ist Pionier der Wechselrichter-Technologie seit 1998. Der deutsche Hersteller bietet Wechselrichter und Systemtechnik für Solarstromanlagen sowie Lösungen für den Batteriespeicher und das Energiemanagement für den Endverbraucher.

The blueplanet 3.0 - 20.0 NX3 M2 integrate the latest technologies and there are differences in handling compared to previous inverters from KACO new energy. For this reason, our new generation of inverters is designed for easy installation and user-friendly operation.

In 1999, KACO new energy revolutionised the market with the first series-ready string inverter without transformer. Since then, our inverters have captured worldwide markets and are equipped for a wide variety of applications in battery storage systems and PV plants of all sizes - from single-family homes to decentralised multi-megawatt solar ...

KACO new energy GmbH's inverters have been installed in over 50 countries, and the company has a reputation for delivering high-quality products and services. In addition to its focus on solar energy, KACO new energy GmbH is also involved in other renewable energy sectors. The company has developed products and solutions for wind energy, energy ...

Im Jahre 2009 erfolgte eine Umfirmierung in die Kaco new Energy GmbH und zog in eine nagelneue Zentrale. Die KACO new Energie hat sich auf die Produktion vom Wechselrichtern und Monitoring Zubeh&#246;r f&#252;r Photovoltaik Anlagen spezialisiert. Es sind &#252;ber 850 Mitarbeiter f&#252;r das Unternehmen t&#228;tig. Zusammen erwirtschaftet das Unternehmen einen ...

Siemens has today announced plans to acquire the string inverter business of the KACO new energy GmbH, one of the leading manufacturers of energy-related power electronics, for an undisclosed sum. The project development and EPC ...

KACO new energy | 14.761 Follower:innen auf LinkedIn. We turn passion into power. | KACO new energy, a subsidiary of Siemens AG, is amongst the world's largest manufacturers of solar PV inverters. The product line-up recommends itself for the full power spectrum from PV systems for single-family homes and commercial and industrial enterprises to solar parks producing ...

You can obtain devices from well-known suppliers from KACO new energy together with our inverters from a single source. Talk to us! blueplanet smartcloud . Smart monitoring. Secure data. System monitoring that combines convenient functions and highest safety standards. blue"Log X ...

German inverter manufacturer Kaco New Energy has developed two new inverters for applications in commercial and industrial (C& I) solar projects. "The inverters ensure a high level of ...

String inverters from KACO new energy are the busy bees of decentralised solar power plants: large enough to keep installation and maintenance manageable; small enough to avoid costly yield losses. A wide range of services round off our inverter programme and make the entire product life cycle a walk in the park - anywhere in the world. ...

KACO new energy inverters are equipped with many useful features. In addition, we offer suitable accessories to meet your individual system technology requirements. In combination with decades of experience and comprehensive services, you will ...

Change of name: KACO Ger#228;tetechnik GmbH becomes KACO new energy GmbH. 2010-2012. At the Neckarsulm site, two state-of-the-art, energy efficient plants are created. 2012. First product solutions for energy storage systems. 2014. Double anniversary: 100 years of KACO and 15 years of KACO new energy. 2017

Services from KACO new energy keep this interaction in balance, so that the PV system will continue to meet all your expectations for years to come. Commissioning support . Have a safe grid connection. From correct installation to precise parameterization. Warranty extension .

The best idea for the private energy transition is a solar PV plant: Inverters from KACO new energy supply the appliances in homes with clean energy from one's own rooftop power plant. This reduces the amount of electricity that homeowners are charged by the energy provider. Surplus solar energy can either be fed into the public grid, which ...

We have developed the blueplanet web public monitoring portal especially for monitoring small solar PV systems: Check your yield data and display your contribution to environmental protection - free of charge and at any time via the Internet.

Since the end of April 2019, KACO new energy has been a subsidiary of Siemens AG. Within Siemens AG, KACO new energy is the specialist for power electronics for decentralised energy supply. As part of the Operating Company Smart Infrastructure, we benefit in particular from the exchange on topics such as building technology, electromobility and ...

KACO new energy, a subsidiary of Siemens AG, is amongst the world's largest manufacturers of solar PV inverters. The product line-up recommends itself for the full power spectrum from PV systems for single-family homes and commercial and industrial enterprises to solar parks producing megawatts of electricity. KACO new energy is based in Neckarsulm, near Stuttgart, ...

KACO new energy is a manufacturer of inverters for photovoltaic plants and energy storage systems. Its products include reactive power compensation units, hybrid and battery inverters, DC-breakers, photovoltaic accessories, etc. The company caters to the utility, commercial, and residential sectors.

Your KACO new energy Service centre. Please use this form for your service request. Customer Service / Technical Advice Inverters, monitoring and accessories +49 7132 896-1000 Customer Service / Commercial Advice Orders, offers and pick ...

KACO New Energy, founded in 1914, is a solar inverter manufacturer based in Neckarsulm . On this page,

## Kaco energy

you can find a complete list of solar inverters from KACO New Energy and compare models side-by-side. Quick facts about KACO New Energy solar inverters in the EnergySage Buyer's Guide: Number of solar inverter models: 59 ...

Eingebettet in einen starken Konzernverbund ist KACO new energy für die Herausforderungen der kommenden Jahre bestens aufgestellt,“ so Ralf Hofmann, geschäftsführender Gesellschafter von KACO new energy GmbH, sowie Ralf Sturm und Dr. Marc-Olaf Grumann, die Geschäftsführer des Sturm Family Office.
