

# Lithium ion polymer battery ideal for feathers

As with all Lithium-ion polymer batteries and any power source - they should be used by experts who are comfortable working with power supplies. Package included: LiPo Battery 752035 (3.7V 400mAh) High Discharge Polymer Lithium Ion. Check out our On Sale and Clearance Items Development Resources: Demo codes, Schematics, Datasheets, etc

Features of a 3.7V 400mAh Lithium-Ion battery: Voltage Rating: 3.7V - This indicates the nominal voltage the battery operates at, providing a stable power source. Capacity: 400mAh - This represents the amount of charge the battery can store, indicating how long it can power a device before needing a recharge.; Long Cycle Life: This battery boasts a cycle life of over 300, ...

The 303048 is a 3.7V 400mAh rechargeable Lithium-ion battery which can quickly be integrated into a wide range of electronic devices. The battery comprises a single prismatic cell in a 1-series, 1-parallel configuration. An integrated battery protection circuit board (PCB) provides protection against over-charge, over-discharge, over-current and short-circuit.

Polymer Lithium Ion Lipo Battery, 3.7V, 400mAh. These 3.7V Polymer Lithium-Ion (LiPo) batteries provide a high power capacity in a very small lightweight package. This makes them ideal for many applications. They
