

Longi photovoltaic panel label size

What is a LONGi Solar module safety guide?

This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules. No matter where you are in the delivery and installation process, LONGi is here to help if something goes wrong.

Can you walk on a LONGi Solar PV module?

DO NOT stand or walk on PV modules. Prior to beginning installation, review the Installation Manual for LONGi Solar PV Modules. Do not carry a module alone; always use two people to lift and carry. Do not drill holes in the frame of the module.

What if a Longi PV module is broken?

To inform the LONGi customer service personnel within two weeks when modules are found broken or other significant abnormality. Refer to the LONGi PV Module Operation and Maintenance Manual for details on module maintenance.

How to calculate VOC in a Longi module?

(LONGi modules maximum system voltage is DC1000V/DC1500V---actually system voltage is designed based on the selected module and inverter model.) The correction value of VOC can be calculated by the following formula. $C_{Voc} = 1 - \frac{V_{oc} \cdot (25 - T)}{T}$ T: The expected lowest temperature of the installation site.

How does Longi package a module?

LONGi packages each pallet as follows: Cardboard sleeve (remember that the glass side of the module is directly on the other side of the cardboard. Do not cut into the cardboard with a sharp object on the sides) Before you unpack your modules, check the shipping label to ensure you received the right modules.

What is the maximum system voltage for Longi modules?

(LONGi modules maximum system voltage is DC1000 V/DC1500 V---actually system voltage is designed based on the selected module and inverter model) The correction value of VOC can be calculated by the following formula. T: The expected lowest temperature of the installation site.

UL Solutions has recognised LONGi's high-efficiency modules with Environmental Product Declaration (EPD) certification. LONGi has also registered EPD Italy certification as a result of mutual recognition. ... EPD ...

The panels are equipped with Hybrid Passivated Back Contact (HPBC) solar cell technology and have a standard size of 182mm. They are available in 72-cell, 66-cell, 60-cell, and 54-cell configurations, making them adaptable to a wide ...

Longi photovoltaic panel label size

Photovoltaic panels 600W - Longi Hi-MO 6 Scientist LR5-72HTH 580-600M-V03 DG Longi Hi-MO 6 Scientist LR5-72HTH 580-600M-V03 DG is a high-efficiency photovoltaic panel designed for ...

LONGi is extremely confident in the performance of its LONGi Hi-MO 5 solar panel series, which is why they cover them with an industry-leading warranty of 30 years for a power output of 84.95%. This warranty covers the ...

Longi Hi-MO 7 solar Panels. LONGi's Hi-MO 7 is the latest generation of high-efficiency modules specifically designed for utility applications. These modules utilize n-type HPDC (High Performance and Hybrid Passivated Dual-Junction ...

The LONGi LR4-60HPB 360M is an all-black high-quality solar module with a peak power output of 360W that offers excellent power output, efficiency, and durability. ... LONGi LR4-60HPB ...
