

Green Hydrogen, Energy Storage & Solar: The Future of Energy Is Collaborative and Digital We need to discuss the importance of collaboration, innovation, and digitalization in driving a ...

UAE's Global South Utilities (GSU) will develop a 50-MW solar farm, coupled with 25 MWh of battery energy storage capacity, in Madagascar, as part of a broader partnership with local ...

S'pore pressing ahead with R& D on emerging energy options, including hydrogen, geothermal With regional interest in nuclear energy rising, S'pore must build capabilities too: Tan See ...

Hydrogen storage plays a crucial role in enabling its large-scale adoption as an energy carrier. This study examines the technical and economic aspects of storing hydrogen in 200-bar ...

METASPACEX, a leading energy sector company, has announced a strategic partnership with Chongqing Bihe New Energy Technology Co., Ltd. (Chongqing Bihe) to enter the hydrogen ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

Selecting the right hydrogen storage method involves a careful consideration of various factors, including application requirements, infrastructure availability, cost, and safety. Compressed ...

Google's partnership with Energy Dome to power its data centers will ensure that its electricity demands are met in an efficient, reliable - and most importantly - clean manner. Google ...

This paper presents a low-carbon economic dispatch strategy designed explicitly for distant oceanic islands, incorporating energy self-sufficiency rates and seasonal hydrogen storage ...

The project underscores GSU's commitment to sustainable energy solutions in the Global South, potentially boosting Madagascar's energy capacity and reliability. This development aligns with ...

Renewables developer GSU and the Madagascar Ministry of Hydrocarbons and Energy, have agreed to develop a 50 MW solar plant and a 25 MWh battery storage facility in the city of ...

So-called liquid organic hydrogen carriers (LOHCs) offer a solution to the storage and transport problem. But inserting and extracting hydrogen into LOHCs requires catalysts that are often ...

Madagascar hydrogen energy storage
