

American solar panel manufacturer First Solar says it is the only solar manufacturer with global in-house PV recycling capabilities and more than 15 years of experience operating these facilities on a worldwide and industrial scale.

Large renewable procurement in South Africa and ambitious hydrogen production plans in Egypt are expected to bring huge amounts of privately-owned, utility-scale solar capacity on line in the next three years.

Global average solar LCOE stood at \$0.043/kWh in 2024, says IRENA The International Renewable Energy Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar ...

The 75 MW Kathu solar photovoltaic (PV) project was developed under the first round of the Renewable Energy Independent Power Producer Procurement Programme (REIPPPP) and was among the very first utility ...

Trinasolar, a global leader in smart PV and energy storage solutions, signed a Memorandum of Understanding (MOU) with Solaris Energy (Pvt) Ltd., a leading solar distributor in Sri Lanka, to ...

About SunChase Power Since its founding in 2015, SunChase Power developed a utility scale renewable energy portfolio with more than 11.5 GW of solar and 3 GW of battery storage projects located in MISO South, ...

ABB has earned the UL98B certification for its 2,000-V OTDC switch-disconnector, the first to do so in the renewable energy industry. Over the last 20 years, solar systems have evolved to ...

Peak production is one of the shared goals of stakeholders across the utility-scale solar value chain, but with site conditions becoming increasingly challenging, it's a more complex goal than...

Trinasolar, a global leader in smart PV and energy storage solutions, signed a Memorandum of Understanding (MoU) with Solaris Energy Ltd., a leading solar distributor in Sri Lanka, to ...

The International Renewable Energy Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar plants year-on-year, while the global average total installed cost of utility-scale solar projects ...

Recurrent Energy is one of the world's largest and most geographically diversified utility-scale solar and energy storage project development, ownership and operations platforms. With an industry-leading ...

The utility-scale solar industry continues to demonstrate remarkable momentum, with 9 GWdc of new capacity installed in Q1 2025 alone. While this represents a 7% decline from the previous year, the sector remains a cornerstone of the ...

What utility-scale solar project developers should know about One Big Beautiful Bill Developers will need to navigate expiring tax credits, stricter "safe harbor" rules and foreign content ...

Enbridge has made a final investment decision on the Clear Fork solar project in Texas, a 600-megawatt facility whose entire output will be acquired by Meta Platforms Inc. under a long ...

A group of researchers from Morocco has developed a novel technique to geo-label solar modules in large-scale parks. It utilises infrared (IR) images from unmanned aerial vehicles ...

Utility-scale solar farms are vast installations designed to generate solar power at a massive scale, typically selling the electricity produced to the grid. These facilities differ significantly ...

As per the contract, Canadian Solar will supply 390,073 pieces of its latest BiHiKu7 series bifacial modules, which adopt 210 mm wafers and have a power output of up to 670W. Canadian Solar states they are tailored for utility ...

According to ICSC Chief Data Scientist Jephraim Manansala, this rise in unregistered solar affects how distribution utilities plan and manage the grid. SPECTRUM classifies rooftop solar into ...

Utility scale solar submissions increase Submissions for utility scale solar farms has been at heights not seen before. With over 7GWp submitted to date this year and over 5GW submitted ...

TotalEnergies Starts Up its Largest Utility-Scale Solar Farms with Batteries in the United States Houston/Paris, September 30th 2024 - TotalEnergies has started commercial operations of Danish Fields and ...

Why Understanding Solar Controllers Is Critical For C& I And Utility-Scale Projects Solar controllers play a central role in managing the complexity of commercial and industrial (C& I) and utility-scale solar installations. They act as the system's ...

Mbabane utility-scale solar
