Does Microtek have a solar inverter?

Microtek has a range of solar inverters or 'Solar UPS'. They are hybrid inverters and can be used with a battery bank though they are built to prefer solar power. They can also be charged with grid power. They come with an in-built PWM solar controller. There are four inverters in this range.

How to check Microtek inverter?

Your inverter needs to be checked by Microtek service personnel. Register your complaint to Microtek service center, they will visit you for inspection. Get your warranty card and note down the serial number (with bar coding sticker on last page) before you call them. Phone is right there at last page of your manual.

Who makes Microtek Inverters?

Founded in 1986, Microtek makes a wide range of alternative power system products: inverters, hybrid inverters, solar inverters, solar panels, cables, batteries, battery monitors, inverter management suites and stabilizers. Microtek is a very popular and well-trusted inverter brand in Lagos markets. Microtek inverters are pure sine wave inverters.

Does Microtek offer a warranty on inverters?

Microtek offers up to 2 years warranty on its inverters. Microtek has a range of battery-based inverters (or UPS) and solar inverters. Microtek Jumbo Model inverters are high-capacity inverters that use a PWM technology to give a pure sine wave output, with battery and appliance protection technologies. They come in two different designs.
